****Urgent Notice****

From: United Amhara Political Wing
To: All Fano Units

To effectively tackle the current internal challenges within the Amhara struggle, we propose an immediate restructuring and establishment of the All Fano units military command. This initiative involves separating the political wing from the fighting force, allowing Fano fighters to be led by experienced generals, colonels, and majors. This separation will help create a more effective fighting force, free from political distractions.

Additionally, we recommend forming a collective political leadership that truly represents all five regions: Shewa, Bete Amhara, Gonder Begemidir, Gojam, and the remaining Amharas in other regions of Ethiopia. It is essential that this collective leadership is primarily made up of Amhara Nationalists, with at least four of the five regional positions held by individuals from this group.

Respectfully,
United Amhara Political Wing
